Getting Started with the Basics

Day 1 of Diving into
Kubernetes

Discover the building blocks of Kubernetes with simple examples.

Neel Shah

1

What Are Pods?

Think of Pods as boxes that hold your app parts. They work together inside.

2

Meet the Nodes

Nodes are like the houses where Pods live. They provide space and resources.

3

Pods & Nodes Together

Pods live on Nodes, just like items stored in a warehouse. Simple team effort!

4

Why Pods and Nodes Matter

They keep everything running smoothly, distributing work efficiently.

You've taken the first step!

Dive Further into Kubernetes

Now you know Pods and Nodes basics, the key players of Kubernetes.
